

Your recycling helps to empower Oasis workers

Meet Tash, Mary and Duncan*

Did you know that more than 80% of deaf children with intellectual disabilities never get the opportunity to learn sign language? This means opportunities for meaningful employment are significantly reduced for deaf adults with intellectual disabilities.

Tash, Mary and Duncan*, are Oasis beneficiaries who are deaf, and never got an opportunity to learn sign language, or any tools for communications. Communication for them has been a challenge, both in their communities, and in the work place.

So how have you positively contributed to this story? When we pick up your recycling, we are able to:

- Create jobs for young people and adults with intellectual disability in the Recycling Project,
- Provide added support to ensure holistic needs of those in our care are met.

Tasha, Mary and Duncan are now attending sign language classes, and are starting to communicate effectively with their co-workers.

Recycle with Oasis, and continue to impact the environment and create positive change in people's lives.

Thank you for your ongoing support.

Blessing Tsiga
