

We don't just recycle, We create opportunities

Say hello to Rodney*

Rodney* has an intellectual disability that creates challenges for him when carrying out many of the day to day tasks we take for granted - tasks such as creating a CV, applying for a job, or even battling the morning commute. However, thanks to the support of recycling clients like you, Oasis Association is able to provide Rodney* with the opportunities and fulfilling employment he deserves.

Oasis Association is aimed at creating work opportunities for adults with intellectual disabilities who may otherwise find it difficult to navigate the job market. We currently employ up to 400 intellectually disabled adults in our Protective Workshops.

So please continue to recycle with Oasis, and remember that it is only through your support that we are able to provide this invaluable service to Rodney* and the 400 other individuals like him.

So thank you for your ongoing support.

Blessing Tsiga
